CALIF. BAPTISTS ADOPT
NEW STUDENT PROGRAM

FRESNO, Calif.--(BP)--The clarification of established policies and adoptions of certain new ones highlighted the April meeting of the board of directors of the Southern Baptist General Convention of California.

One of the recommendations approved by the board was that of the Baptist Student Union. The recommendation calls for the following:

1. When full-time student directors are employed that they be recommended by the BSU committee of the board of directors and a committee of three from the local church including the pastor.
2. Exclusive use, except in rare instances, of Southern Baptists on local campus and on state programs.
3. Launching of a more extensive program on the part of the Southern Baptist General Convention of California to enlist the interest and support of pastors and churches in the work of the student union.
4. That the following suggestions serve as the framework for the BSU program of education and indoctrination:
 - a. Use of Sunday School Board literature as basic material for organizational procedure, for study of church life and program.
 - b. Cultivation of a keener perception and appreciation of the distinctive Southern Baptist position, message, and mission.
 - c. Intensive effort by local student directors and churches to relate all Southern Baptist students to the church.
 - d. Emphasis on state, home, and foreign missions with prayerful anticipation that more students will volunteer for service in these fields.
 - e. An abiding emphasis on evangelism--the winning of non-Christian students to faith in Christ as Saviour and Lord.
 - f. Greater emphasis on personal Christian experience and the dedication of life to Christian service.
