Dear Teletype Supervisor:

We enclose the following sheet with this hope. . .

. . .that you will tack it on the office bulletin board or circulate it around the departments.

Of course, most of you are already singing the praises of teletype in notes high and strong enough to be heard all around your building. And your file on the wire shows its usefulness has been discovered by quite a few folks in your agency.

This sheet will help keep them reminded of teletype...its day by day usefulness...the kind of messages it may be used for...the convenience of it...the range of its reach.

Sincerely,

Theo Sommerkamp
