## Carson-Newman Chemist Advances Cancer Study

JEFFERSON CITY, Tenn.--(BP)--A chemist at Carson-Newman College here has synthesized "anti-cancer foods" which arrest, prevent, and slow down the growth of certain transplanted cancers in experimental rats.

This was announced by the American Cancer Society, which supported research by Carl T. Bahner of the Carson-Newman department of chemistry and Oak Ridge Institute of Nuclear Studies. The U. S. Atomic Energy Commission, the Research Corporation and Medical Research Foundation also helped finance the work.
